DCM CA Spreaders with hydraulic control are designed for accurate application of all types of granular fertiliser.

With a base hopper capacity of 900 litres and the ability to extend up to 2000 litres these spreaders are suited to a wide range of applications and have the added benefit of a stainless steel hopper.

CA TWIN DISC SPREADER

A compact spreader suited to spreading granular fertiliser in vegetable, pasture, vinyard and orchard applications.

- 900, 1200, 1500 and 2000 litre capacities
- Twin stainless steel disc with up to 24 metre spreading widths
- Hydraulic left and right independent controls with stainless steel tie rods
- Filter grid to prevent fertiliser lumps blocking the gates and compromising quality, accuracy and spreading uniformity
- Options include conveyor attachments and hopper cover

900L	1200L	1500L	2000L
